DEFINITE DEREGISTRATION OF VEHICLES AT THE DGT

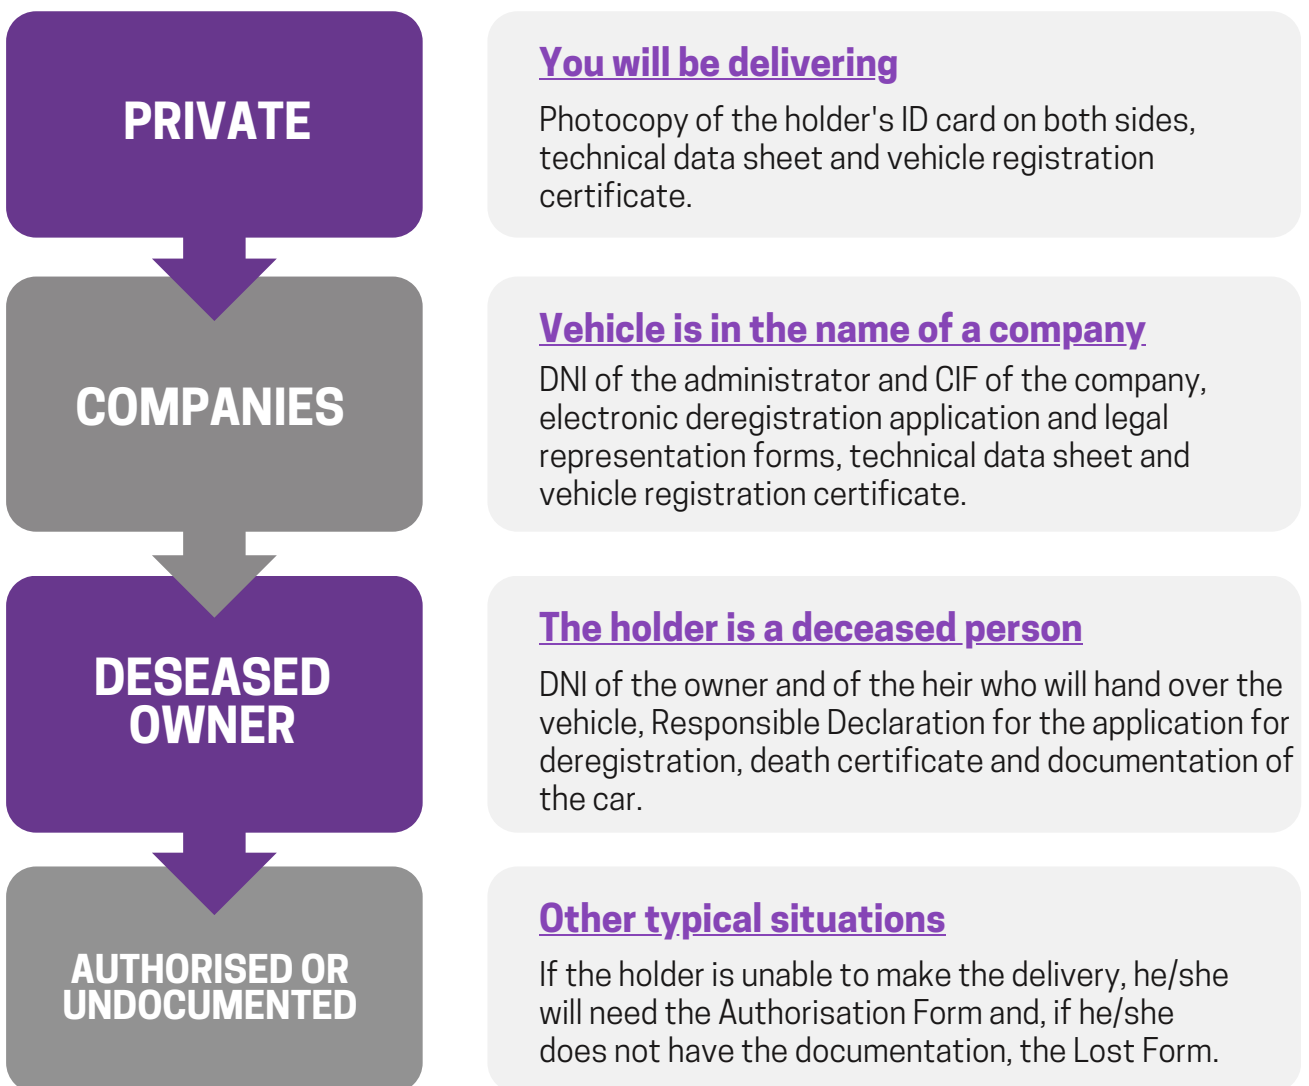

THE **FINAL DEREGISTRATION** OF END-OF-LIFE VEHICLES IS HANDLED DIRECTLY AT THE SCRAPYARD.

Many drivers are unaware of the fact that it **is not necessary to go to the DGT offices to process the permanent deregistration of a car with the *Dirección General de Tráfico***, as authorised scrapyards carry out this process electronically from their facilities.

REQUIRED DOCUMENTATION

In order for our collaborating Authorised Treatment Facilities (ATF) to carry out the procedure for the **definitive deregistration of your vehicle at the DGT**, it is essential that you gather and provide the documentation detailed below.

If none of these situations fits your particular case, please **contact our customer service team** so that we can inform you without obligation.

Integrated management of scrapyard services

Find out more about the advantages of accessing any of the scrapyard services offered by our company and have your vehicle transferred to the ATF by the best professionals in the sector!
